Company Profile

ABOUT US

Coerco is an established and trusted Australian manufacturer and supplier of innovative polyethylene products essential for every type of liquid, storage and transportation. Delivering world-class products is the highest priority along with striving to improve lives by innovating in the agricultural industry and creating opportunities within the market.

With the best support network of key distributors, Coerco understands the specific issues faced by the farming community. Coerco's key distributors are in every major township across Western Australia.

As a leading liquid storage manufacturer and supplier in Australia with decades of experience and expertise to provide quality in every aspect of its products, Coerco has an outstanding range of equipment. Every aspect of the manufacturing process is closely monitored to the highest quality from water, liquid fertiliser and diesel storage to fire fighting equipment and sewerage treatment.

COMPANY HISTORY AND RURAL ROOTS

Coerco has been supplying Western Australia with a range of innovative polyethylene liquid storage solutions designed to meet the needs of agriculture for more than 30 years. The company was created by Coerco's Founder, Andrew Jackson in 1993 as Rapid Plastics and added a subsidiary in the industrial sector called Multi-Tech. In 2016 the company underwent a major rebranding and merged the two companies to form Coerco.

As a proudly Australian Owned Certified business (#08515), Coerco has always committed to supporting the rural community from its factory in Dalwallinu, which employs more than 150 staff and donates to multiple rural causes and charitable groups. By growing its company in a small country town, Coerco understands the issues facing rural WA.

Company Profile

COERCO MEANS

Coerco is renowned for providing quality products to the agricultural market in WA. Products that are easy to use, simple to install and long lasting. Coerco's simple ordering and delivery service, reliable warranties and after-sales service are second to none.

Rural Knowledge

Coerco's experienced sales team understands each local area and is equipped with rural knowledge to assist with livestock products, liquid management, fire fighting or septic system requirements.

Australian Made

Coerco's team has more than 150 years of combined industry experience with an expansive factory in Dalwallinu, modern offices in Malaga and fabrication centres in Bunbury and Northam, with products made to suit the harsh and changing Australian climate.

Continuous innovation ensures every poly product is designed for peak performance to meet the needs of farmers across Western Australia.

Customer Care

Dedicated and experienced staff monitor every aspect of each product order to ensure a seamless and trouble-free experience. Complete customer satisfaction is at the center of Coerco's business philosophy with the Coerco team maintaining regular and open communication throughout the purchasing process and for after-sales feedback.

Company Profile

KNOWLEDGEABLE AND FLEXIBLE LOGISTICS

Distribution Network

A reliable supply of Coerco products available across the state

Coerco's large range of liquid storage solutions, agricultural products, septic systems and fire fighting units are readily accessible in convenient locations throughout rural regions of WA. The knowledgeable local staff provide expert guidance on the best type, size and colours to choose from as well as tips and advice on installation and maintenance. Coerco has held a strong relationship with its rural dealer network since the 1990s, which also helps to support local communities and businesses.

Logistics

A comprehensive logistics team keeps its fleet of trucks moving

Coerco has a large, specialised transport fleet with decades of experience and connections to proven transport networks. The fleet is part of an agile operation to coordinate deliveries to remote locations, when it suits our customers. Our transport and logistics team is experienced in the planning and delivery of products to remote locations. More than 10 permanent truck drivers are complemented by on call staff to provide a 24-hour, five-day-a-week transport service.

Warranty and After Sales Care

At Coerco, complete customer satisfaction is a critical driving force of the business philosophy, and this extends to warranty. Each product includes guaranteed manufacturer support for the period stated after purchase. This means the product is warranted against defects or faults caused by poor workmanship or inferior quality. business philosophy with the Coerco team maintaining regular and open communication throughout the purchasing process and for after-sales feedback.

Water Tanks

The Thickest, Time-Tested Poly Water Tanks To Ever Exist In Rural Western Australia.

Manufactured & Designed by Rural Aussies for Rural Aussies, reliable Coerco water tanks help put seasonal goals within your reach, just what every Australian agriculture business needs.

KEY FEATURES

- One-piece construction
- Durable and impact resistant polyethylene for long life
- Engineered and certified to meet Australian Standards (AS 4766:2020)
- Available in an array of colours

All Include Self-Supporting Roof

UV-Stabilised

Made of Polyethylene

Premium Corrugated Water Tanks

FEATURES

- One-piece construction
- Attractive heritage design
- Corrugated for strength and traditional appearance
- UV-stabilised to withstand our harsh climate
- Durable and impact resistant polyethylene for long life
- Engineered and certified to meet Australian Standards (AS 4766:2020)
- Self supporting lid design eliminates need for centre support pole
- Available in a range of colours (See page 16)

COMP-19-06	80mm (3") Poly Fitting	\$118.80
COMP-19-07	100mm (4") Poly Fitting	\$158.40

FEATURES

Dipstick (TAL-7)

- Floating pole type water level gauge
- Out of reach of animals
- 360° all round visibility
- Great for Cup & Saucer Tanks

Liquidator (TAL-10)

- Ideal for chemical tanks, only the float is in contact with liquid
- Protected guided indicator, isn't bothered by wind or other disturbances

FEATURES

Brass Tank Fittings

- Locking nut is left hand thread for secure fit. Doesn't come loose when fitting valves etc
- 25-50mm have internal and external threads
- 80-100mm have external thread

Poly Tank Fittings

- Available in 6 sizes.
- Manufactured from UV-stabilised glass fibre reinforced nylon to protect from weather, termite, fungi and bacteria.

Standard Colour Options

Coerco poly water tanks are designed and manufactured under strict control to ensure they are suitable for drinking quality and fully UV-stabilised in all colours to survive our harsh climate.

Our tanks are manufactured using the certified polyethylene resins or powder to meet the following standards (for 1.0 SG water tanks):

- AS/NZS 4766:2020 Polyethylene storage tanks for water and chemicals
- AS/NZS 4020 Australian Standard for drinking water
- AS 2070 Part 1 and Part 8 Australian Standard for food contact

Animal Products

Built Tough for Everyday Farm Use.

Coerco has the largest range of polyethylene equipment for animal management in Western Australia. Whether your priority is efficiency, value-for-money, durability, ease of use or all of the above, our products and excellent customer service tick all the right boxes!

KEY FEATURES

- Made of durable poly for lasting performance
- Manufactured in guidance of Australian Standards
- UV-stabilised for harsh climate conditions
- One-piece construction

Standard Colour is Beige

UV-Stabilised

Covered Float

All Poly Stock Troughs

FEATURES

- Standard with 25mm (1") float valve
- Optional with 32mm (1¼"), 40mm (1½") or 50mm (2") float valve
- Unmatched strength through one piece moulding
- Exceptionally durable and versatile
- Easy to clean with round sweep out end
- Standard colour is beige
- Full float valve protection
Designed and manufactured in WA for harsh local conditions
- Optional waterfilled base for improved stability
- Peg down points to prevent livestock pushing trough around

PTM31F	230Ltr Feed Trough - no float valve	2400	580	250	\$286.00

FEATURES

- Water troughs only available with 15mm float valve
- Strong all-poly construction suitable for corrosive environments
- Light and easy to handle facilitates relocation
- Smooth finish for ease of cleaning
- Peg down points to prevent livestock pushing trough around
- Covered float on water troughs prevents stock damage to float

Ultra Tub Troughs

FEATURES

- Float compartment moulded as part of trough
- Raised float to allow complete filling of trough
- All pipework protected by trough surround
- 50mm drain bung
- Exceptionally strong design
- Stainless steel float valve cover fasteners

Protected float valve compartment and stainless steel fasteners.

Liquid Fertiliser Products

High-Quality Fertiliser Storage & Transport Tanks You Can Trust.

Coerco has revolutionised liquid fertiliser storage and transport with innovative polyethylene products—delivering greater value, efficiency, and profitability for Australian farmers.

KEY FEATURES

- Certified design and analysis on structure
- Made of the highest quality poly, Coerco's liquid storage tanks are UV-stabilised to withstand the harsh Australian landscape
- Comes with the necessary fittings and accessories needed for immediate use

Standard Colour is White

UV-Stabilised

Fertiliser-safe, corrosion-resistant poly.

Liquid Fertiliser Storage Tanks

FEATURES

- Certified design and analysis on structure
- Durable, impact resistant, UV stabilised, chemical resistant poly material
- 80mm (3") suction port with butterfly valve, camlock and dust cap (includes elbow to draw from lowest point)
- 80mm (3") fill line including 25mm (1") drain for operator safety
- Tank level gauge for easy viewing of content volume
- Vented access hatch
- Approved for storage by all major liquid fertiliser companies

Liquid Fertiliser Free-Standing Transport Tanks

FEATURES

- Special 'FNS' series range manufactured for transport of liquid fertilisers and chemicals with heavier SG ratings
- Easy to read calibrations[†]
- Strength through ingenuity of design
- Durable, impact resistant, UV stabilised polyethylene
- Stainless steel lid
- Sight tube for easy viewing of content volume[†]
- One outlet supplied with tank, quantity and sizes optional
- Integral foam filled baffle to reduce surge and increase stability**
- Mounting pins supplied as standard, extra mounting pins available
- Optional Ball Baffle System available
- All free standing tanks available with forkliftable skid
- Poly fittings for easy connection
- Standard colour is white

** Except 3000, 5000, 12500 & 17000Ltr Models

† Calibrations and sight tube readings should be taken as an approximate measure of volume

Liquid Fertiliser Sump-Based Transport Tanks

FEATURES

- Special 'FNS' series range manufactured for transport of liquid fertilisers and chemicals with heavier SG ratings
- Easy to read calibrations[†]
- Strength through ingenuity of design
- Durable, impact resistant, UV stabilised polyethylene for long life
- Stainless steel lid
- Sight tube for easy viewing of content volume[†]
- Two outlets supplied with tank, quantity and sizes optional
- Mounting pins supplied as standard, extra mounting pins available
- Optional Ball Baffle System available
- Optional Skid Frame available
- Poly fittings for easy connection
- Standard colour is white

Bulk Liquid Fertiliser Units

FEATURES

- Heavy duty steel skid frame with two-pack epoxy
- Container lock mounting system to suit a 30-foot skel trailer
- Available in 25,000L or 29,500L capacities
- Fully-baffled tanks using baffle ball system
- Spill containment bunds around fill points
- Access platform and fold-down ladders
- 3-inch poly pump with Honda GX160 petrol engine
- 3-inch discharge to both sides
- 3-inch delivery hoses in PVC holders (both sides)
- 3-inch fill port (complies with liquid fertiliser supply stations)
- Stainless steel lid with breather and probe port
- Work lights for night use
- Stainless steel toolbox
- 200L freshwater tank for pump rinse and hand wash
- Air assisted flush out system

Bulk Liquid Fertiliser Units

Code	Description
FNS25000-TS	25,000 Bulk Liquid Fertiliser Unit (2 x 12,500 liquid fertiliser transport tanks)
FNS29500-TS	29,500 Bulk Liquid Fertiliser Unit (1 x 17,000L and 1 x 12,500L liquid fertiliser transport tanks)

Stainless Steel Lid with breather and probe port

Stainless Steel Toolbox

3-inch Delivery Hoses in PVC Holders (both sides)

3-inch Poly Pump with Honda GX160 Petrol Engine

3-inch Discharge (Both sides)

Access Platform and Fold-down Ladders

Transport Tanks

Coerco Liquid Transport Tanks, Built as Tough as Aussie Farmers.

Manufactured and designed by Rural Aussies for Rural Aussies, Coerco poly liquid transport tanks have the exact features you need to strengthen your operations.

KEY FEATURES

- Easy-to-read calibrations
- UV-stabilised for our harsh climate conditions
- Durable and impact-resistant polyethylene
- A vast variety of capacities with baffle systems to choose from
- Suitable for use in any industry and are rust-free

Sight tube for easy viewing of content volume

UV-Stabilised

Standard Colour is White

Free- Standing Transport Tanks

FEATURES

- Easy to read calibrations[†]
- Strength through ingenuity of design
- Durable, impact resistant, UV stabilised polyethylene for long life
- Sight tube for easy viewing of content volume[†]
- One outlet supplied with tank, quantity and sizes optional
- Secure screw lid
- Integral foam filled baffle to reduce surge and increase stability**
- Mounting pins supplied as standard, extra mounting pins available
- Optional Ball Baffle System available
- All free standing tanks available with forkliftable galvanised skid
- Strainer basket supplied with all tanks
- Standard colour is white

Transport Tank Modifications and Accessories

FEATURES

- Increased vehicle stability
- Reduction in the likelihood of rollover from liquid displacement.
- Increased safety through less driver fatigue.
- Reduction in vehicle maintenance costs (tyres, brakes, etc.).
- Reduction in wear and tear on suspension.
- Improved driving stability on rough terrain and emergency stops.
- Manufactured from food-grade polypropylene.
- CLIP-LOCK Technology - securely fasten each baffle ball, preventing separation and ensuring consistent, long-lasting performance inside your tank
- Compatible with most harsh chemicals and fuels (petrol, diesel, paraffin, etc.).

Fire Fighting Equipment

Take Charge Before Fire Becomes Unstoppable on Your Farm.

Manufactured and designed by Rural Aussies for Rural Aussies, Coerco fire fighting equipment helps safeguard your investments so you can stay in business.

KEY FEATURES

- Easy to use, baffled for stability
- Equipped with a genuine Honda GX series engine and Aussie Fire Chief pump with a 5-year pump-end warranty while staying portable
- Range of sizes and models available fit for rural applications

Hot dipped galvanised steel hose reel

UV-Stabilised

Designed for Easy Operation

Skid Mount Fire Fighting Units

FEATURES

- Durable UV-stabilised white coloured polyethylene tank with baffle
- Sight tube for easy view of content volume
- Secure screw lid
- Strong hot dip galvanised steel frame with easy lifting & tie down points - always ready for action
- Hot dipped galvanised steel hose reel with 30m of 25mm hose - complete with adjustable nozzle and hose reel lock
- 50mm camlock quick connection fittings
- 6mtr Suction hose with non return foot valve
- Aussie Fire Chief Pump with a 5-Year pump end warranty and powered by a 3-year warranty Honda engine

FFCH1000	1,000Ltr Compact Fire Fighting Unit	1675	1185	1240	\$6,564.80

Optional Extra

- Diesel powered pump
- Ball Baffle System

FEATURES

- All sizes with sump drain for complete evacuation of tank contents
- All sizes with forklift access
- Durable UV-stabilised polyethylene tank for long life
- Secure screw lid
- Strong hot dip galvanised steel frame with easy lifting and tie down points
- Hot dipped galvanised steel hose reel with 30m of 25mm hose - complete with adjustable nozzle and hose reel lock
- 6mtr suction hose with foot valve
- Aussie Fire Chief Pump with a 5-Year pump end warranty and powered by a 3-year warranty Honda engine
- Compact design - Ideal for tray back utes
- 50mm camlock quick connection fittings

Trailed Fire Fighting Units

FEATURES

- Designed and manufactured for easy operation
- Durable UV-stabilised white coloured polyethylene tank with baffle
- Secure screw lid
- Galvanised chassis frame
- Mudguards and mudflaps
- Heavy duty pivot jockey wheel
- Landcruiser stud pattern rims
- Aussie Fire Chief Pump with a 5-Year pump end warranty, powered by a 3-year warranty Honda engine
- 50mm camlock quick connection fittings
- Hot dipped galvanised steel hose reel with 30m of 25mm hose - complete with adjustable nozzle and hose reel lock
- Suction hose with non return foot valve

Hose Reels

FEATURES

- Hot dipped galvanised steel frame and base
- Compact design for smooth operation
- Simple winding mechanism
- Strong locking mechanism to prevent accidental unwinding
- High-quality nose and nozzle

Hose Reels

Code	Description	List Price (incl. GST)
FRX25	Fire Hose Reel - Excluding Hose - To Suit 25mm Hose	\$597.30
FR25	Fire Hose Reel - 25mm Hose @ 30 Mtr	\$820.60

Diesel Products

Superior Diesel Storage & Transport Products Across All Industries.

Keep your operations running with safe, reliable, and efficient diesel storage and transport products.

KEY FEATURES

- Manufactured in guidance to Australian Standards
- One-piece construction
- High-quality diesel grade material
- Storage tanks with dispensing stations
- Range of sizes and models available

UV-Stabilised

Formulated for Diesel Use

Specialised Grade Polyethylene

Diesel Storage Tanks

FEATURES

- Complies to Australian Standard AS1940:2017 when Installed Inside an Approved Bund. (Bund is not included with tank)
- High-quality diesel grade material
- UV resistant for Australian conditions
- Easy to install and easy to relocate if required
- 50mm anti-splash and anti-static fill line with non-return valve
- 50mm low level outlet with lockable ball valve tap and camlock
- Level gauge for easy viewing of content volume
- Earth strap and rod

Diesel Storage Tanks

Code	Description	Diameter (mm)	Height (mm)	List Price (incl. GST)

§ Except 3000 & 5000Ltr Models

† Calibrations and sight tube readings should be taken as an approximate measure of volume only.

Diesel Free-Standing Transport Tanks

FEATURES

- Integral foam filled baffle to reduce surge and increase stability [§]
- Flat based to allow transport flexibility
- Special grade polyethylene for diesel - coloured to denote "Diesel Only"
- UV-stabilised for long outdoor life
- Mounting pins supplied as standard
- Optional Ball Baffle System available
- All models available with forkliftable galvanised mounting skid
- 2" filler hole with cap, 2" drum pump access fitting and splash resistant vent
- Calibrated for easy checking of content volume with sight tube [†]

Diesel Free-Standing Transport Tanks

Diesel Free-Standing Transport Tank Skid Frames

Code	Description	List Price (incl. GST)
SKD-FS-400	Duragalv Skid Frame To Suit 400L Free-Standing Transport Tank	\$1,238.60
SKD-FS-600	Duragalv Skid Frame To Suit 600L Free-Standing Transport Tank	\$1,266.10
SKD-FS-800	Duragalv Skid Frame To Suit 800L Free-Standing Transport Tank	\$1,447.60
SKD-FS-1000	Duragalv Skid Frame To Suit 1,000L Free-Standing Transport Tank	\$1,452.00
SKD-FS-1500	Duragalv Skid Frame To Suit 1,500L Free-Standing Transport Tank	\$1,775.40
SKD-FS-2000	Duragalv Skid Frame To Suit 2,000L Free-Standing Transport Tank - Fork Accessible	\$2,228.60
SKD-FS-3000	Duragalv Skid Frame To Suit 3,000L Free-Standing Transport Tank - Fork Accessible	\$3,014.00
SKD-FS-5000	Duragalv Skid Frame To Suit 5,000L Free-Standing Transport Tank - Fork Accessible	\$3,781.80
SKD-FS-7000	Duragalv Skid Frame To Suit 7,000L Free-Standing Transport Tank - Fork Accessible	\$5,501.10
SKD-FS-10000	Duragalv Skid Frame To Suit 10,000L Free-Standing Transport Tank - Fork Accessible	\$5,724.40
SKD-FS-12500	Duragalv Skid Frame To Suit 12,500L Free-Standing Transport Tank - Fork Accessible	\$6,604.40
SKD-FS-17000	Duragalv Skid Frame To Suit 17,000L Free-Standing Transport Tank - Fork Accessible	\$7,070.80

Diesel Transport Units

FEATURES

- Durable UV-stabilised polyethylene tank with specialised grade polyethylene suitable for diesel
- Baffle Ball System for improved load stability
- Galvanised steel frame with fork access and platform for pumping equipment and plumbing
- 40mm cast iron diesel transfer pump coupled to Honda GX160 petrol recoil start engine
- 32mm filter with pressure gauge
- 25mm auto rewind hose reel (with 15m of hose)
- 25mm auto shut-off nozzle and nozzle holder
- 50mm fill line (independent of pump) including non-return valve
- Sight tube for easy view of content volume
- Ability to fill tank through pump

Diesel Transport Units

Code	Description	Length (mm)	Width (mm)	Height (mm)	List Price (incl. GST)
DTU2000	2,000L Diesel Transport Unit	2795	1400	1230	\$15,373.60
DTU3000	3,000L Diesel Transport Unit	3220	1538	1450	\$17,624.20
DTU5000	5,000L Diesel Transport Unit	3180	1836	1858	\$21,287.20

DTU10000	10,000L Diesel Transport Unit	4420	2110	2150	\$31,114.60
DTU12500	12,500L Diesel Transport Unit	4555	2200	2235	\$35,736.80
DTU17000	17,000L Diesel Transport Unit	5485	2345	2500	\$43,522.60

Diesel Transport Unit Accessories

Code	Description	List Price (incl. GST)
MT-DHA40-U	40mm Auto Rewind Hose Reel - Upgrade from 25mm	\$2,783.00
MT-ASN40-U	40mm Auto Shut-Off Nozzle - Upgrade From 25mm	\$607.20
MT-FM40	40mm BSP Port 4 Digit Flow Meter	\$3,086.60
MT-FM4	25mm BSP Port 4 Digit Flow Meter	\$314.60

Diesel Transfer Accessories

FEATURES

- Diesel Pump Kits for refuelling operations from drums, tanks or mobile refuelling carts
- Robust proven pump kits for diesel refuelling operations
- Designed to give effortless refuelling for agricultural operations

Diesel Transfer Accessories

Code	Description	List Price (incl. GST)
MT-12A45K	12 Volt Pump Kit With Auto Shut-Off Nozzle - 45Lpm	\$811.80
MT-12A60K	12 Volt Pump Kit With Auto Shut-Off Nozzle - 60Lpm	\$993.30
MT-12AHF	12 Volt Hi-Flo Pump Kit With Auto Shut-Off Nozzle - 85Lpm	\$1,414.60
MT-FM4	25mm BSP Port 4 Digit Flow Meter, Manual	\$314.60
MT-FMD	25mm BSP Electronic Inline Digital Flow Meter For Diesel	\$503.80
MT-FM40	40mm BSP Port 4 Digit Flow Meter, Manual	\$3,086.60
MT-DHA25	25mm Auto Rewind Diesel Hosereel	\$1,793.00
MT-DHA40	440mm Auto Rewind Diesel Hose Reel	\$4,796.00
MT-ASN25	25mm Auto Shut-Off Nozzle	\$390.50
MT-ASN40	40mm Auto Shut-Off Nozzle	\$883.30
MT-DF	1 ¼ Inch Diesel Filter with Gauge	\$387.20
MT-DF10	1 Inch 10 Micron Fuel Filter	\$248.60
MT-MSN40	1 ½ Manual Shut-off Nozzle	\$419.10

MT-12A45K

- 45L/min open flow
- 4 metres of 20mm anti-static delivery hose with anti-kink spring + auto shut-off nozzle
- 4 metres of power cable
- 2 metres of 20mm suction hose
- On/off switch on pump

MT-12A60K

- 60L/min open flow
- 4 metres of 25mm anti-static delivery hose with anti-kink spring + auto shut-off nozzle
- 4 metres of power cable
- 2 metres of 25mm suction hose
- Easy clean suction strainer

MT-12AHF

- 85 L/min open flow
- 12 volt DC/35 amp pump
- 4 metre battery cable with alligator clips
- Easy to use volumetric self priming
- 1" BSP female ports
- 4 metres of 25mm diesel delivery hose
- Auto shutoff nozzle with swivel

MT-FMD

- 1" BSP electronic inline turbine meter with compact display ideal for fitting at fuel nozzles
- Flow range 10-120 LPM maximum, working pressure 300 PSI. accuracy ± 1%.

MT-DHA25

- Hose reel with 15m x 25mm hose. 1" BSP inlet/outlet. air/water/diesel
- 300 PSI working pressure

MT-FM4

- 1" BSP port 4 digit flow meter with flow range from 20 - 120 LPM
- 4 digit resettable totaliser. 8 digit non resettable cumulative total
- For use with diesel fuel in pump or gravity applications.

MT-ASN25

- 1" BSP port
- Auto shut-off

Septic Systems

Beat the Old – Coerco’s Premium Septic Systems are Conveniently the Best.

Designed by experienced rural Aussies, Coerco’s poly septic and leach drain systems offer hassle-free delivery, installation, and performance—reliable, easy to use, and great value without compromising quality.

KEY FEATURES

- Manufactured to meet Department of Health approvals: Western Australia, Northern Territory, and South Australia
- Certified to AS1546.1 for a range of septic and wastewater products
- Variety of sizes to suit your requirements

UV-Stabilised

Made of Polyethylene

Septic Tanks

FEATURES

- Lightweight, easy to transport and install
- Manufactured from durable polyethylene
- Anti floatation ring and ribbing incorporated into design
- Certified to Australian Standard AS/NZS1546.1 and approved by Department of Health - WA
- Supplied as complete kit including lid, inlet and outlet 'T' pieces
- Leach drain systems also available

Septic Tanks

Code	Description	Diameter (mm)	Height (mm)	List Price (incl. GST)
SEP-1450	1,450Ltr Septic Tank	1250	1500	\$1,101.10
SEP-2200	2,200Ltr Septic Tank	1540	1500	\$1,150.60
SEP-3200	3,200Ltr Septic Tank	2150	1745	\$2,183.50
SEP-4000	4,000Ltr Septic Tank	2200	1730	\$2,486.00

Septic Tank Accessories

Code	Description	List Price (incl. GST)
EFD-100	100mm Effluent Diverter	\$210.10

* To comply with Australian Standards requirement of minimum 3000L septic tank volume, our SEP-2200 and SEP-1450 can be combined. For a single-tank solution, our SEP-3200 is the ideal option; Septic tank colour may vary depending on the recycled material used.

HydraDrain Modular Leach Drains

HydraDrain Modular Leach Drains

Code	Description	List Price (incl. GST)
LD-04	Leach Drain - 4 Mtr (Includes Cells & Geocloth to suit)	\$412.50

LD-06	Leach Drain - 6 Mtr (Includes Cells & Geocloth to suit)	\$530.20
LD-07	Leach Drain - 7 Mtr (Includes Cells & Geocloth to suit)	\$649.00
LD-08	Leach Drain - 8 Mtr (Includes Cells & Geocloth to suit)	\$709.50
LD-09	Leach Drain - 9 Mtr (Includes Cells & Geocloth to suit)	\$822.80
LD-10	Leach Drain - 10 Mtr (Includes Cells & Geocloth to suit)	\$882.20
LD-11	Leach Drain - 11 Mtr (Includes Cells & Geocloth to suit)	\$1,001.00
LD-12	Leach Drain - 12 Mtr (Includes Cells & Geocloth to suit)	\$1,059.30
LD-13	Leach Drain - 13 Mtr (Includes Cells & Geocloth to suit)	\$1,116.50
LD-14	Leach Drain - 14 Mtr (Includes Cells & Geocloth to suit)	\$1,234.20
LD-15	Leach Drain - 15 Mtr (Includes Cells & Geocloth to suit)	\$1,294.70
LD-16	Leach Drain - 16 Mtr (Includes Cells & Geocloth to suit)	\$1,413.50
LD-17	Leach Drain - 17 Mtr (Includes Cells & Geocloth to suit)	\$1,469.60
LD-18	Leach Drain - 18 Mtr (Includes Cells & Geocloth to suit)	\$1,587.30
LD-19	Leach Drain - 19 Mtr (Includes Cells & Geocloth to suit)	\$1,645.60
LD-20	Leach Drain - 20 Mtr (Includes Cells & Geocloth to suit)	\$1,763.30

FEATURES

- Made from 100% recycled material
- Light weight
- Modular
- 95% void area
- Strong
- Service temperature from -20°C – 120°C
- Polypropylene
- Flat pack form

BENEFITS

- Environmentally friendly
- Simple to install
- Easy to deliver
- Cost effective
- Chemically inert
- Not affected by mould or algae
- UV-stabilised
- Water saving
- 100% recyclable

General Conditions

Product Benefits

Coerco's products are manufactured from the highest food grade material conforming to Australian standards. These products are strong, lightweight, UV resistant and exceptionally durable.

Product Specifications

All specifications are subject to change in line with on-going improvements.

Pricing Includes GST

All prices specified include GST and are subject to change without notice.

Product Design Protection

Many of Coerco products are subject of an Australian patent and pending design registration.

Sizes

All sizes, measurements and capacities throughout this brochure are only approximate due to the variable shrinkage nature of polyethylene during manufacture.

Placing Your Order

We have a diverse network of distributors throughout Western Australia. Contact your local Coerco agent or call us on 1800 646 277.

Product Returns

All products returned for credit must be in "As New" condition and are subject to a 20% restocking fee and a return freight cost.

Warranty

Coerco's products are guaranteed against faulty workmanship and carry a warranty. To see the full warranty details go to <https://agriculture.coerco.com.au/warranty>

Minimum Orders

Any order under \$55 including GST is subject to a postage and handling fee of \$25.00 including GST.

Disclaimer

All recommendations within this product catalogue are intended as suggestions only. Coerco does not take any responsibility for the suitability of any product for the use it is given. Product images are a close guide only and may not represent actual product.

Delivery Information

When purchasing a tank from Coerco, it is very important to you provide as much information about delivery as possible. Ideally, the Google Maps latitude and longitude coordinates are the best and most accurate way to tell us where you want your tank delivered.

Other Options

Another option is a clearly defined instruction on a recent map or, as last preference, an address with well-outlined written drop-off instructions. A site contact phone number should also be provided.

Clearance

Please note that Coerco's truck and trailer combinations require a minimum clearance of 20 metres long, 3.5 metres wide and 5 metres high.

Please be aware that it is the owner's responsibility to provide clear access to the site. Clear access on roads, lane ways, through gateways, crossings and trees is essential to ensure the safe delivery of your tank/s or other product/s without damage.

Large tanks can be delivered directly to a property where there is a properly made road and large turning area available. If a driver cannot reach the location, the tank/s will be left at the closest practical position.

General guide for placement of tanks on tank pads

Placement of tanks above 9,500Ltr on a pad requires customer assistance. The following is a general guide to follow (please note that this is a GUIDE ONLY; safe work practices and lifting techniques are to be followed at all times and are the responsibility of the client to observe):

- Tanks between 9,500Ltr and 13,500Ltr need three persons (not including our driver) to handle and manoeuvre into place.
- Tanks between 22,500Ltr and 32,000Ltr need four persons (not including our driver) to handle and manoeuvre into place.

Tanks above 50,000Ltr are too heavy to safely manoeuvre by hand and require either a machine (telehandler, forklift or bobcat) to assist. Alternatively, our logistics team will arrange for the delivery and placement to be conducted with a Hiab equipped truck. This will be discussed and determined during the delivery scheduling call with the customer. Please be reminded that it is the customer's responsibility to ensure there is adequate assistance and/or resources available to safely unload your tank.

If you have any questions regarding your delivery, please give us a call on 1800 646 277 and speak with one of our friendly team members to discuss!

Delivery Information

FREIGHT

Zone 1

Any product or product combination 9,000L or greater includes free delivery to site. All other deliveries are Free Into Store to your local distributor. *Within 800kms of Perth, WA.

Zone 2

For locations outside of Zone 1, please contact us for a highly competitive quote for delivery as per your requirements. We have the largest distribution network throughout Western Australia and our own fleet of delivery vehicles with the capability to deliver throughout Australia and further afield. We deliver when it suits our customers, not according to anyone else's schedule.
